

Directions for use

MASTIX REMOVER Mastix Remover

Grimas Mastix Remover is a remover for Mastix Extra; it also removes it from latex noses and sets.

Procedure

Apply Mastix Remover to a cotton wool pad and then dab it onto the places that the glue is to be removed from. Cleanse the skin afterwards with Grimas Cleansing Lotion.

Hint: for a comfortable feeling, you can rub a skincare cream into the skin, for example Grimas Under Make-up Base or Skincare Cream.

Close the packaging properly after use.

Mastix Remover is also used for cleaning brushes, which should then be rinsed off with water and shampoo.

Safety information

MASTIX REMOVER Mastix Remover

25 ml

100 ml

Packaging:	Colour: transparent (bottle) Content: 25 ml (bottle with spout top) Content: 100 ml (bottle with spout top)

Composition

MASTIX REMOVER Mastix Remover

INCI	<%
Isopropyl alcohol	90
Isopropyl myristate	20

The ingredients that are present in the product in the greatest proportions are listed first.

Ingredients that are present in the product to less than 1%, are listed in random order at the end of the list. Then the pigments and colorants are addressed, even if they are used in large quantities.

< is less than.

Dermatological declaration

MASTIX REMOVER Mastix Remover

In the dermatological declaration one can read the following:
The products have been dermatologically tested for 24, 48 and 72 hours on 30 persons with healthy skin. No irritation occurred.

CONCLUSIONS

Under the conditions of this test we found no evidence of primary irritation or allergic hypersensitivity.

None of the thirty patch-tests resulted in positive reactions after 24, 48 and 72 hours.

The investigating specialist for dermatology and allergology considers this test-product safe for use.

Dr.med.Werner Voß

Investigating specialist
for dermatology and allergology

Safety declaration

Has been evaluated at:

The toxicity profile of the ingredients used, taking account of any contaminants present.

Interactions between the various raw materials.

Quantities of weight and volume the consumer is exposed to.

Foreseeable improper use by the consumer-group.
